

LECMMPA

Who We Are

Union Transportation Workers are governed by hundreds of operating rules, regulations and orders. What would you do if you were held out of service without a paycheck?

LECMMPA members are protected by the combined financial strength of the entire membership.

LECMMPA was established in 1910 as a cooperative assessment insurer, whose purpose is to provide wage loss insurance to unionized transportation workers. Our members are 32,000 union transportation men and women, who recognize the benefit of banding together to protect their incomes in the event of discipline or discharge.

LECMMPA, during 2006, paid over \$13,500,000 in benefits to our members, allowing them to weather the storm of discipline and protect their families and their assets.

Typical Causes for Which Claims Have Been Paid

- Operating outside track and time authority limits;
- Run through switches;
- Improper vehicle or equipment inspection logs;
- Poor quality repairs;
- Improper reporting of placement of cars;
- Failure to properly secure consist Track Inspector's failure to discover FRA track defects;
- Inadequate switch and signal inspections;
- Switches not properly lined.

There are many more. EACH claim is evaluated individually.
